E. WOLFF & SONS' NEWLY-INVENTED CRETA LÆVIS, OR PERMANENT DRAWING CHALKS,

IN CEDAR, IN EVERY VARIETY OF COLOUR.

E. WOLFF and SONS beg to state that they have, by the introduction of great improvements in their CRETA LÆVIS, enabled it to be used the same as the ordinary pencils; and effects can now be produced equal to water-colour drawings, without the use of water or any other fluid; the various colours blending together with perfect harmony, beauty, and richness. It can be cut to a fine point, and is thus capable of giving a very delicate outline.

For sketching from Nature, the great advantages resulting from the adoption of the CRETA LÆVIS must be obvious, as, without the use of water, palette, brushes, &c., all the various tints can be obtained with a truthfulness that cannot be surpassed, and by their compact form may be carried any distance without the slightest inconvenience; thus superseding every other method in general use.

The drawings may be carried in a portfolio with safety, as, unlike other Crayons, they will neither rub off nor suffer injury by coming in contact with the usual contents of a portfolio.

The CRETA LÆVIS, unlike the indelible or wax Crayons, WILL NOT BE AFFECTED BY HEAT OR CHANGE OF CLIMATE.

E. WOLFF and SONS' IMPROVED CRAYON PAPER is the best for the CRETA LÆVIS.

E. WOLFF & SONS' PURIFIED BLACK LEAD PENCILS,

PERFECTLY FREE FROM GRIT, MAY BE ENTIRELY ERASED, AND WILL MAINTAIN A FIRM POINT.

E. WOLFF and SONS beg to inform the Trade that they have succeeded in so greatly improving their Black Lead, that they are now manufacturing a PLUMBAGO, or BLACK LEAD PENCIL, entirely free from grit, which will easily yield to India Rubber, and ensure perfect erasure; it possesses great brilliancy and depth of colour, and will maintain a firm point. They have attained to so great a perfection in the manufacture of this Lead as to be able at all times to make the same strength and colour when once found to be suitable for any particular purpose, and have produced a pencil fully equal to those used in former years, when they were made of the finest Cumberland Lead, which at the present time cannot be obtained sufficiently pure for the best pencils. The following are the degrees:—H, HH, HHH, HHHH, F, FF, HB, EHB, B, BB, BBB, BBBB, W.

W. This pencil is particularly recommended for writing and counting-house use.

E. WOLFF and SONS have the honour of supplying their PURIFIED BLACK LEAD PENCILS to Her Majesty's Stationery Office, the Admiralty, the Bank of England, several Railway Companies, and many other Public Establishments.
